PERSONAL PROFILE

As a developer, I cover all bases. I'm currently pursuing MCA in full-stack field and my BCA was in web development. In an effort to learn more, I've made personal projects that demonstrate my experience. Python and Java are the two main languages I use and I'm also familiar with other technologies.

PROJECTS

1. Portfolio

This project serves to highlight my professional qualifications. This project was created using HTML, CSS, Javascript, Node, and MongoDB. Those who visit this page can get in touch with me through the contacts.

2. Music Player

Using HTML, CSS, and JavaScript to develop a music player website, Make music come to life

3. To Do List

This project is an online to-do list that you can modify, add, and remove items from. This project was created with a Python GUI.

4. Picme

This undertaking is an internet storefront. to purchase men's formal and casual clothing. HTML, CSS, JavaScript, PHP, and SQL were used to construct this project.
